THE LEGISLATURE.

THIRTY-SIXTH DAY.

Monday, July 11, 1892.

Afternoon Session.

The Assembly reconvened at 1:40. On motion the answers of the Attorney General, which were under discussion before recess, were ordered to be printed.

At 1:50 the Assembly resolved into Committee of the Whole, Rep. Kamaoala in the chair, and proceeded with consideration of items in the Appropriation Bill.

Noble Cornwell read the following statement, as appertaining to a motion to insert \$8000 for a permanent salary to Queen Dowager Kapiolani.

A wrong impression seems to prevail amongst the Hon. members of the Legislative Assembly as to the exact situation of Her Majesty the Queen Dowager, Queen Kapiolani. As one who exactly knows her financial situation, I think it is my duty to enlighten the committee and the House on the true state of affairs. The principal income of the Queen Dowager is the sub-letting to Portuguese tenants of the slopes of Punch-bowl (Crown Land of Awauiolimu I think).

Until twelve months ago the income from that source was somewhere about \$4500 to \$5000 a year. But on account of the large exodus of Portuguese in 1891 the income became reduced by half, and now I venture to say that for the year 1892 it will be still much reduced, as for the present it is next to impossible to collect rents, most of the houses are for sale, and find no purchasers, and it is a question if a year hence any rents can be collected at all. Outside of this lease the Queen personally owned very little property, a few small pieces here and there bringing hardly any income.

As heir to the King I can state exactly her situation:
The debts paid so far amount to.....\$106,000 00
The Estate owes one firm that she will have to pay.....5,000 00
There are several law suits still pending and probably there will have to be paid not less than.....5,000 00
Grand total.....\$116,000 00

The balance of the Estate is completely mortgaged with no exception, partly to Hon. A. Wilcox, \$30,000 00 Partly to His Excellency H. A. Widemann, 10,000 00
Total.....\$40,000 00

Hon. W. O. Smith as a party to one of the transactions will certify to the facts, so will His Excellency H. A. Widemann.
The interest is 9 percent, viz., \$3600 a year. Besides the notes covering the mortgage have to be paid within four years.

The income of what is left of His late Majesty's Estate will just about pay the interest on the notes, and a little over towards the mortgage, so that for the present and for the next four or five years anyhow she will be reduced to a very precarious situation, unless, which is highly improbable, she can get as before a good income from her Portuguese colony.

As far as that income is concerned I will state on oath if necessary that it never exceeded \$5000 and is now below \$2500 with great chances of deduction or even annihilation.

Besides Her Majesty has not only got herself to look after. She has to provide for her sister Poomaikelani who has no income and the two young Princes Kalamanaole and Kawaanaka. I hope therefore to be able to persuade the committee and the Hon. members of the Legislature, that it would be justice to help her along for the next two years anyhow. And this for two reasons:

1st—That she has lived a spotless life, been an example to her race and the promoter of two or three benevolent enterprises, at her personal cost.

2nd—That she is the widow of one who, if he had been more provident, ought to have left her wealthy and without care, and who nevertheless and notwithstanding many faults that I am bound to admit, has been the means to bestow on our little country a prosperity that seems to have vanished at the same time as his life.

Trusting in the justice and impartiality of the Hon. members of the Committee and the Legislative Assembly of the Kingdom,
I remain,
Theirs most respectfully,
G. THOUSSAET,
Administrator of the estate of Kalamanaole, deceased.

P. S.—I will add that some \$10,000 or \$12,000 of private property of the King are still in possession of the Chamberlain at the Palace. All the carriages, most of the coronation presents, a good deal of furniture and the Electric Light plant. When the trustees took hold of the

NOTICE TO MARINERS.

During the process of deepening the channel at the entrance to Honolulu harbor the Dredger will be in operation night and day. At night there will be a danger signal placed on the forward derrick of Dredger about 30 feet above sea level, which can be seen by all vessels approaching the harbor.

The signal consists of Red Red of three red lights and a white light as in the diagram, the red lights being about 3 feet apart with the white light in the center.

All steamers crossing the bar will stop at a safe distance from the Dredger and give one blast of their whistle which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.
